Now with Bluetooth® hands-free calling

F20 | F20 EUROPE | F30 | F40 EUROPE

The Freedom Range 2007

NAVMAN
Ultimate Navigation

World class maps

Navman's comprehensive maps provide a stunning and accurate graphical representation of the topography around you. The maps cover more than 6 million miles of streets and roads in Europe, 360 million inhabitants, 65,000 municipalities and more than 300 million house numbers.

Map coverage

Mapping across Europe is comprehensive, with over 95% of roads covered in the majority of European countries. Maps of Poland, Czech Republic, Hungary, Slovakia, North America, Canada and New Zealand are sold separately.

Tele Atlas

Tele Atlas provides Navman with detailed map data for European countries, including postal codes, different terrain and land features and points of interest, such as petrol stations, garages, hotels and restaurants.

Tele Atlas is the leading worldwide map data provider for personal navigation solutions. In a rapidly expanding industry, Tele Atlas continuously produces richer and fresher geographical content and map coverage.

F20 | F20 EUROPE | F30 | F40 EUROPE The Freedom Range

The Freedom Range from Navman. Choose the one that's right for you.

You want to avoid traffic when you're on the road. You want hands-free calling on your mobile. Or maybe you just want to drive from A to B as quickly and simply as possible.

With Bluetooth hands-free calling, real-time traffic information and detailed European-wide maps, the new expanded Freedom range now does even more, so whatever you want from a car navigator, Navman has it covered.

NAVMAN

The pocket-sized Freedom range.

Offering more choice and flexibility than ever before, the new Freedom range is loaded with plenty of intelligent features normally found in more expensive car navigators, all packed into a slim, stylish device, for less than the cost of a few tanks of fuel.

Freedom Range Models

Key Features

- Easy to use entry level navigation device
- Slim, portable, high quality design
- Pre-installed safety camera data*
- 3.5" colour touch screen
- Nearest Parking and Petrol buttons

- Simple user interface
- Affordable 3D navigation
- Easily transferable from car to car
- Turn-by-Turn™ voice guided navigation with 3D graphics
- Drive-Away™, works straight out of the box
- Back on track™, gets you back to your route if you take a wrong turn
- No PC connection required

* Optional subscription to the Navman safety camera database service (with optional Connectivity Kit).

Every device in the Freedom Range has all the key features shown. There are four models to choose from. Bluetooth and Traffic are also available as optional accessories for the F20 and F20 Europe.

F20

Affordable navigation beyond the basics. With detailed 3D maps for your region, and hundreds of intelligent and simple to use features, the F20 is ready to go straight out of the box.

F20 EUROPE

Navigate throughout Europe with all the key features of the F20 plus pre-installed detailed maps of over 6 million miles of streets throughout 21 European countries.

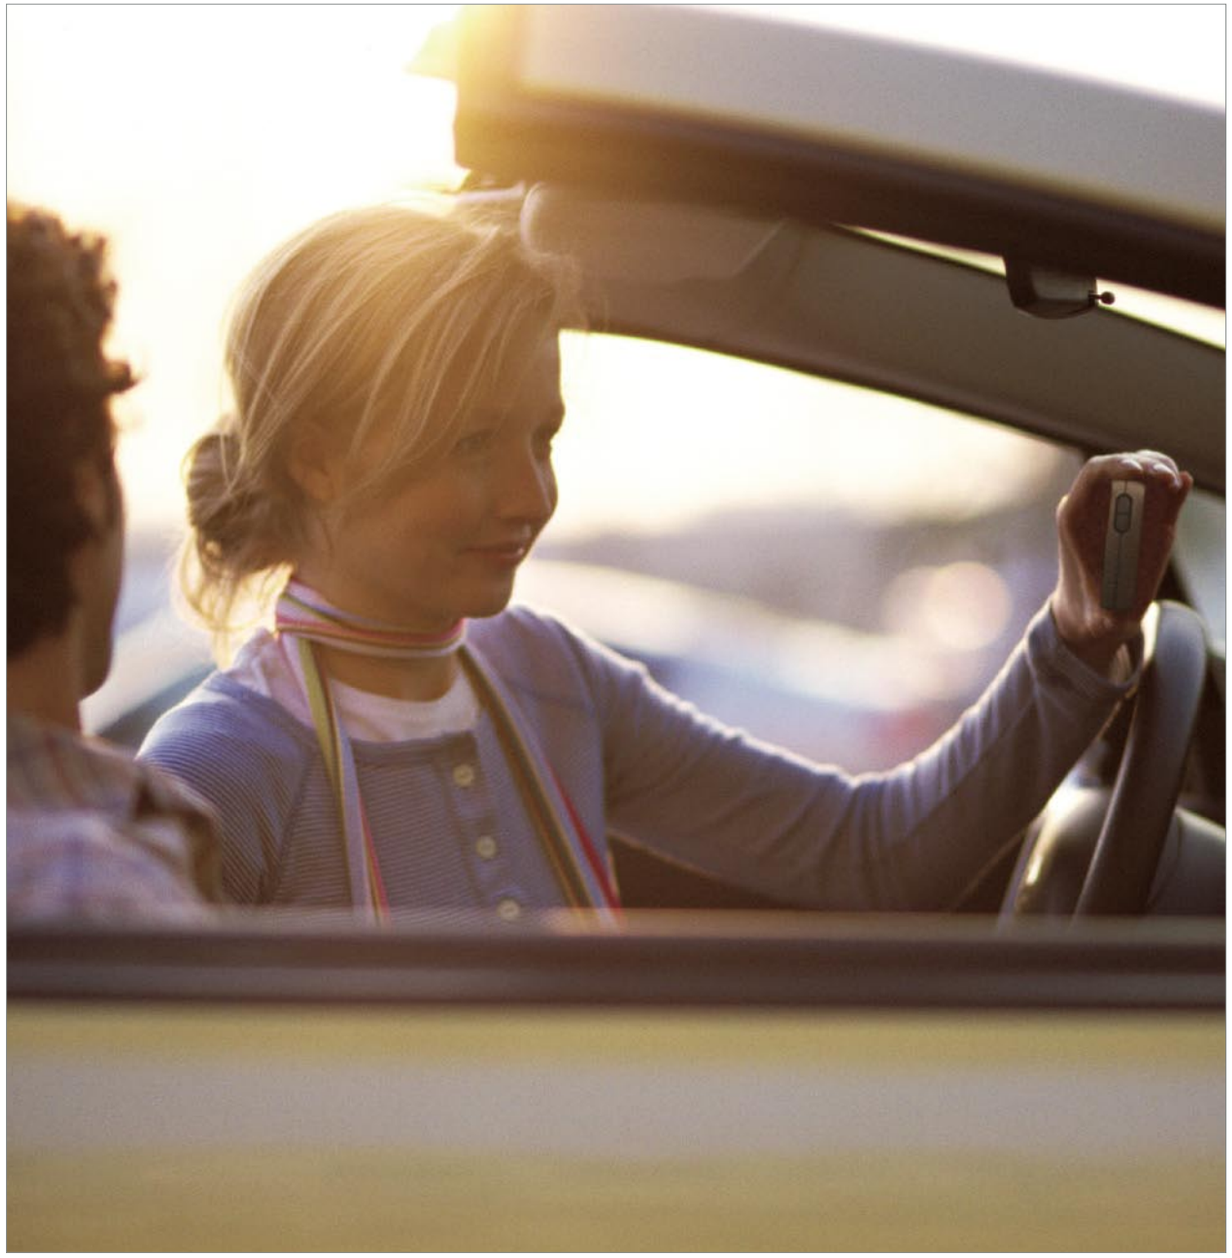
F30 with Traffic

The F30 with Traffic gives you all the benefits of F20 navigation plus real-time traffic information sent direct to your device. And no monthly subscription means you can avoid traffic forever without paying forever.

F40 EUROPE with Hands-free calling

Affordable navigation with pre-installed European maps of 21 different countries. Bluetooth hands-free calling with your mobile phone enables you to make and receive calls while driving, legally and safely.

Not all models are sold by all retailers. Visit **www.navman.com** for your nearest stockist.



Bluetooth – Freedom to chat and drive.

The Freedom F40 Europe features Bluetooth so you can make hands-free calls from your mobile, with or without the navigation device, giving you more flexibility. Built-in speakers make hands-free conversation loud and clear, while voice-activated dialling means you can make calls and still keep both hands on the wheel, and if someone phones you, the navigation screen acts like a larger version of your mobile's display so it's easy to see who's calling.

Bluetooth®

Bluetooth Features

- Hands-free calling with voice activated dialling
- On screen caller ID display
- Works with or without navigation device
- Compatible with most Bluetooth mobiles
- Pair with up to 5 different phones
- You can upgrade your F20 and F20 Europe with Bluetooth

Avoid traffic. Avoid monthly bills.

You may know your route, but no one can predict traffic, which is where Navman's traffic pack comes into its own. Real-time traffic information is sent directly to your Navman, gives you an overview of all traffic incidents in your area and helps you re-route and find a quicker way to your destination. Navman's traffic pack is subscription-free, so you can avoid traffic forever without paying forever.

TMC TRAFFIC MESSAGE CHANNEL

Traffic Features

- Real-time traffic information direct to your Navman
- Subscription-free
- No Bluetooth or GPRS connection required
- Map overview with traffic incidents displayed
- Works out of the box and fitted in seconds
- You can upgrade your F20 and F20 Europe with Traffic

Detect road Safety Cameras before they detect you.

Everyone agrees that road safety cameras make for safer driving and safer roads. Safety Camera data is pre-installed on all Freedom models and tells you in advance when there are Safety Cameras ahead. Navman uses a comprehensive Safety Camera database throughout several European countries, that can be regularly and easily updated from your PC.*

*Via subscription. See navman.com for subscription updates.

Safety Camera Features

- Pre-loaded database on all Freedom models
- Easily updated via your PC*
- Accurate and comprehensive database
- Several European countries included
- 3-year subscription for the price of 2
